Prepares work in a quality manner.	1	1	4			
Demonstrates a cooperative and supportive attitude.	1	1	4			
Contributes significantly to the success of the project.	1	1	4			
TOTALS	6	6	24			

Feedback on team dynamics:

1. How effectively did your group work? (List at least 3 things)

For this deliverable, communication within the group was extremely poor. My messages to the group often received no response, and there was little to no participation from my teammates. Because of this, I ended up working alone on the deliverable, including brainstorming ideas and implementing the new features myself. The lack of communication and contribution made it difficult to collaborate as a team.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain. (List at least 3 things)

The communication was bad, they were not responding and this affected and made it hard to work together as a team.

3. What did you learn about working in a group from this project that you will carry into your next group experience? (List at least 3 things)

Speak up earlier when there are communication issues. I learned that if group members are not responding or participating, it’s important to raise the issue earlier instead of waiting until the deadline is close.

Set clearer accountability for each member. In the future, I would make sure that tasks are clearly assigned to each person so that everyone knows what they are responsible for.

Have a backup plan when collaboration isn’t working. Even though I tried to check in with the group, responses i didn't get any responses , so I learned that sometimes you need to adapt and move forward with the work while still documenting communication attempts.
